SUMMARY

Frontend Developer passionate about crafting clean and user-friendly web experiences. I enjoy turning ideas into beautiful web experiences using HTML, CSS, and JavaScript, and I'm currently exploring frameworks like React. As a fast learner with a strong eye for design, I'm eager to contribute to real-world projects, grow my skills, and become part of a team that values creativity, learning, and innovation.

TECHNICAL SKILLS & TOOLS

Responsive Design	Git/Github	Multi-page Website
HTML	Flexbox	Visual Studio Code
Javascript	CSS Grid	

PROFESSIONAL EXPERIENCE

Frontend Developer (Personal Projects)

Remote | 2025 – Present

- Developed and styled multiple responsive web projects including a personal Portfolio Website, Rant Website using HTML, CSS, and JavaScript.
- Designed clean, mobile-friendly interfaces with a focus on accessibility, responsiveness, and user experience.
- Implemented light/dark mode features and smooth scrolling effects to enhance interactivity
- Utilized Git and GitHub for version control, project hosting, and collaboration.
